

INFORMATION ONLY NOTIFICATION

On Thursday, March 26, 2009 Fairchild made the following announcement, "The company will close its wafer fabrication plant in Mountaintop, PA leading to a closure of the site, and one of its wafer fabs in Bucheon, South Korea. These actions are consistent with the company's ongoing cost reduction strategy, and the need to align manufacturing capacity with end demand. Most products currently made at the Mountaintop, PA site will be transferred to other internal sites. A small office will be maintained for technology and product line functions in the Mountaintop area. The South Korea site will close its four-inch line and transfer associated manufacturing to its five and six-inch wafer fabs. Fairchild will work closely with customers during the process to ensure a seamless transition." The impacted Fairchild products grouped according to the PCN will be included and can be found at the following link. This list is subject to change and will be updated prior to issuing any final PCNs. The Mt Top and AB wafer fabrication facilities are being completely shut down. As a result, it is very important that the change notifications be addressed promptly when received to minimize potential for disruption in product shipments beyond the 90 day notification period. If your evaluation will require more than 90 days, it is recommended that you place orders for inventory in an amount that is sufficient of to support your manufacturing needs during the evaluation period. We would like to caution you not to wait until the last moment to place any necessary orders as we may not be able to guarantee delivery of requested products if we do not receive your buy order in a timely fashion. Please contact your local Sales Representative or Customer Quality Engineer at your earliest convenience if you have any questions about this change or will need any specific product samples or data to complete your evaluation.

This is to inform you that a change is being made to the following product(s). This notification is for your information only.

If you have any questions concerning this change, please contact:

Technical Contact:

Name: Burns, Mark

E-mail: Mark.Burns@notes.fairchildsemi.com

Phone: 207-775-8641

PCN Originator:

Name: Burns, Mark

E-mail: Mark.Burns@notes.fairchildsemi.com

Phone: 207-775-8641

Implementation of change:

Expected 1st Device Shipment Date: 2010/01/04

Earliest Year/Work Week of Changed Product: 1001

Change Type Description: Alternate Fab Location

Description of Change (From): Closure of Mt Top and Bucheon AB wafer fabs.

Description of Change (To): Transfer of MT Top products to Salt Lake and Bucheon D Line AND transfer of AB products to Bucheon C Line and Foundry.

Reason for Change : Closing wafer fabs. Based on the current schedule it is expected that three final notifications will be issued according to the following schedule:

Change From

	TECHNOLOGY	TRANSFER FROM	TRANSFER TO	EXPECTED PCN DATE
PCN# 1	All	AB	Bucheon, Foundry	Nov-09
PCN# 2	IGBT, UFT, UFP PT2, PT3, PT4	Mt Top	Bucheon Salt Lake	Jan-10
PCN# 3	PT3 MV	Mt Top	Bucheon, Salt Lake	Apr-10

The impacted Fairchild products grouped according to the PCN they will be included in can be found at the following URL. This list is subject to change and will be updated prior to issuing any final PCNs.

http://www.fairchildsemi.com/pcn/AB_MT_PCN_Parts_List.pdf

Change To

Samples of a limited number of product types included in the following list will be available for delivery, upon request, when the scheduled notifications are issued. We encourage customers to consider the use of these samples in order to expedite the approval of these changes.

http://www.fairchildsemi.com/pcn/ION_Samples.pdf

Product Id Description : This is the first in a series of change notifications related to the announced closure of these fabs. The intent of this initial notification is to provide a summary of our plans for providing customers with the information they will need to quickly and efficiently approve of the pending transfers. In order to best support the need for timely delivery of samples and data, additional change notifications will be issued as the various technologies are transferred and qualified. Most of the products manufactured at Fairchild's wafer fabrication site in Mountain Top, Pennsylvania (Mt Top) and 4-inch wafer fabrication facility in Bucheon, South Korea (AB) will be qualified for production at established Fairchild fabrication sites in Salt Lake, Utah, Bucheon, South Korea, or an outside fabrication facility. When these products are transferred to other sites there will no changes to product layout, topography or active areas. The products that will be transferred to other facilities are listed below. Formal obsolescence notices have already been issued by Fairchild for those products that will not be transferred (please see PDN# MQ2090302 issued on May 4, 2009 and PDN# Q2090316 issued on June 11, 2009).
